The Parish Registers of England J. Charles (John Charles) Cox,2012-08-01 Unlike some other reproductions of classic texts (1) We have not used OCR(Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.

Registrum Ecclesiae Parochialis John Southerden Burn,1862
The Parish Registers of England (Classic Reprint) J. Charles Cox,2015-07-11 Excerpt from The Parish Registers of England This work, a great improvement upon the straggling chapters of Burn's bigger book, was much appreciated, especially by the clergy; but it has been long out of print, and difficult to procure through second-hand agencies. Meanwhile,
I kept steadily before my mind the hope of producing a book which, whilst based upon the labours of my predecessors, Burn and Waters, should strike out a wider line of its own, and aim at a better arrangement and at a fuller explanation of unusual points. At last, after many interruptions, literary and otherwise, the idea has matured, and these pages are put forth with a fair amount of hope that they may prove useful and helpful to those who desire to have a better understanding of parochial registers. Another book on this subject was produced in 1908, of the highest value and yet in no sense clashing with this work or causing me to falter in my task, which had then made considerable advance. I allude to Mr. Arthur Meredyth Burke's volume called A Key to the Ancient Parish Registers of England and Wales. In the following year a supplement of addenda and corrigenda was also issued. The object of this laborious work is to provide those who have reason to consult parish registers with an easy and reliable guide as to the period covered by each of them, and also with information as to their having been printed, if such has been the case. Key to the Ancient Parish Registers of England & Wales Arthur Meredyth Burke, 1908 Excerpt from Key to the Ancient Parish Registers of England and Wales In the performance of my task no available source of information has been unexplored, and it is hoped that the Annotated Index, which shows at a glance the date of the earliest entry in every Parish Register in England and Wales, and in which every transcript that has been printed is noted, will prove by its usefulness that my labours have not been in vain. The want has long been felt of a handy and inexpensive manual of the law and practice of registration, which could be consulted with confidence and read with amusement by those, who have parish registers in their charge and take an intelligent interest in their history and contents. The only book on the subject is that of the late Mr. R. S. Burn, who was employed by the Government in the preparation of the Civil Registration Bill of 1837, and was a member of both the Royal Commissions, which were subsequently appointed for the purpose of collecting and authenticating non-parochial registers. It would be ungracious to dwell on the defects of so diligent a labourer in a newly explored field of learning, but Mr. Burn was more successful in collecting facts than in marshalling and digesting his collections, and his History of Parish Registers is disfigured by frequent inaccuracy of quotation, and by a want of power to grasp his subject, which makes it difficult for his readers to form a clear connected view of the different stages through which the question of registration has passed.

This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1883 edition. Excerpt: ... before the middle of the sixteenth century. Henry-Algernon, fifth Earl of Northumberland, whose household book is well known to antiquaries, was born Jan. 13, 1477-8, and his double name appears on his garter plate in St. George's Chapel. But it must be doubted whether the earl was christened Algernon, for at that time baptismal names were taken without exception from the saints of the Church; and it is more probable that he adopted in the pride of race the Norman sobriquet or surname of his ancestor William de Percy, who was distinguished in the court of William Kufus as William Alsgernons, or William 'with the moustache.' With this doubtful exception, the first example of a double name which I have met with is in Fuller, the Church historian, who says that Queen Mary gave to her godsons 'her own name in addition to their Christian names,' so that they were called Anthony-Maria, Edward-Maria, &c. But in the reigns of Elizabeth and James I. the use of two names was so rare in England, that not a single instance occurs amongst the 2,222 students admitted to the Inner Temple between 1571 and 1625; and Camden the antiquary expressly states, --'I only remember now his Majesty, who was named Charles James, and the Prince his sonne Henry Frederic; and among private men, Thos. Maria Wingfield and Sir Thomas Posthumus Hobby.' In the next generation a few noble ladies were named Henrietta Maria out of compliment to the queen, but a double name was regarded as a foreign fashion, and was almost confined to the royal family. The only instance which I have noticed universally followed the example set by the court. But the Huguenots for a long time regarded it as a Popish invention, which they had scruples in accepting; and it was gravely debated.
