*Introduction to Criminal Law*, 1994

*Introduction to Criminal Law* Russell Weaver, John Burkoff, Catherine Hancock, James Diamond, 2021-09-09 For the first time there is a Criminal Law textbook specifically geared to Master's level or undergraduate legal studies/law courses on the subject. The book, written by well-known legal scholars, fills a void. Master's In Legal Studies programs have become quite commonplace in the United States, and, additionally there are colleges experimenting with new undergraduate law programs. Faculty teaching in those programs, or teaching in Criminal Justice classes, however, typically have three imperfect choices if they want to use the case method of teaching law: 1) they use a Juris Doctor level casebook but assign substantially less material from the book; 2) they use a simplistic undergraduate or high school level textbook; or 3) they develop their own materials. This textbook, then, offers a perfect alternative. First, each chapter begins with an overview of the law on the subject covered for simple and easy access. The book that contains thought provoking problems designed to stimulate thought and produce interesting classroom discussion. The hypos are woven throughout the chapters and are designed to help students learn doctrine, illuminate trends in the law, and ultimately produce better learning. The book is also meant to teach practical skills to students going into the field. Some of the problems place students in practical situations that they are likely to encounter in a criminal justice career, and therefore encourage students to think about how they might handle those situations in real-life. The book is designed to be a very affordable paperback.

New to the Fourth Edition: Rewritten and expanded examination of prosecutorial discretion, updated to reflect the June, 2022 Gascon decision by the California Appellate Court and expanded with a sidebar that discusses dispensing power. Reorganized discussion of the principles of legislative jurisdiction recognized by customary international law in Chapter 6 and in Chapter 7, as well as expanded and updated discussion about the exercise of extra-territorial legislative jurisdiction by the federal government and the states. Inclusion in Chapter 8 of the Supreme Court’s reiteration in Dobbs v. Jackson Women’s Health Organization of the test used to determine if a right is protected by substantive due process. The examination of the Second Amendment updated and
expanded to include the Supreme Court’s most recent explication of that right in New York Rifle and Pistol Assn., Inc. v. Bruen and the limits that decision places on the ability of states and the federal government to enact statutes that make the carrying of firearms criminal. Expanded discussion in Chapter 10 to introduce students to the federal Computer Fraud and Abuse Act (CFAA) and the two principles that underlie most of its offenses. Updated examination of wire fraud, reflecting the Supreme Court’s latest decision relating to schemes to defraud. Updated discussion of the insanity defense in Chapter 12.
