Bridal-quest Epics in Medieval Germany Sarah Bowden,2012 König Rother, Salman und Morolf, the Münchner Oswald and Grauer Rock (otherwise known as Orendel) have had a troubled position in the literary history of medieval Germany. Forced into a normative generic framework as either 'Minstrel Epic' (Spielmannsepik) or 'Bridal-quest Epic' (Brautwerbungsepik), these texts have been viewed conventionally according to an essentially teleological classification or a schematic ideal. Bowden challenges the premises of such a view with a detailed history of the textual scholarship, and reevaluates these so called 'Bridal quests' on their own terms, offering detailed and suggestive readings of each work without the distortions or limitations inherent in the traditional interpretative model. Sarah Bowden is Powys Roberts Research Fellow at St Hugh's College, Oxford.

Medieval Listening and Reading Dennis Howard Green,1994-08-25 This study brings recent scholarly debates on oral cultures and literate societies to bear on the earliest recorded literature in German (800-1300). It considers the criteria for assessing what works were destined for listeners, what examples anticipated readers, and how for both modes of reception could apply to one work, exploring the possible interplay between them. The opening chapters review previous scholarship and the introduction of writing into preliterate Germany. The core of the book presents lexical and non-lexical evidence for the different modes of reception, taken from the whole spectrum of genres, from dance songs to liturgy, from drama and heroic literature to the court narrative and lyric poetry. The social contexts of reception and the physical process of reading books are also considered. Two concluding chapters explore the literary and historical implications of the slow interpenetration of orality and literacy. There is a comprehensive bibliographical index of primary sources.

Feminine Figurae Rebecca L.R. Garber,2013-11-05 This work offers an examination of religious texts written by twelve women over three centuries in two languages and three genres, showing the variety and complexity of gendered images

available to medieval women. Moving beyond the categories of virgin, wife and widow, these religious texts created a spectrum of exemplary feminine life-paths based not on marital status, age, social rank, or profession, but instead founded on biblical figures, monastic divisions of labor, expected saintly behaviors, and even individual personality characteristics. This study contributes to discussions of genre and its influences on gender representation, as well as to scholarship on the complexities of gender relationships within literary works and historical contexts. This work will also serve to introduce a wider audience to a cycle of texts and an interrelated group of women authors previously available only to specialists in German and manuscript studies.

Women and Marriage in German Medieval Romance D. H. Green,2009-04-02 D. H. Green shows how German romances found ways to debate and challenge the conventional antifeminism of the medieval period.

Cityscaping Therese Fuhrer,Felix Mundt,Jan Stenger,2015-05-19 The term 'cityscaping' is here introduced to characterise the creative process through which the image of the city is created and represented in various media- text, film and artefacts. It thus turns attention away from built urban spaces and onto mental images of cities. One focus is on the question of which literary, visual and acoustic means prompt their recipients' spatial imagination; another is to inquire into the semantics and functions that are ascribed to the image of a city as constructed in various media. The examples of ancient texts and works of art, and modern literature and films, are used to elucidate the artistic potential of images of the city and the techniques by which they are semanticised. With its interdisciplinary approach, the volume for the first time makes clear how strongly mental images of urban space, both ancient and modern, have been shaped by the techniques of their representation in media.

Criticising the Ruler in Pre-Modern Societies – Possibilities, Chances, and Methods Karina Kellermann,Alheydis Plassmann,Christian Schwermann,2019-12-09 In vormodernen Monarchien beobachteten wir Widerspruch und Widerstand gegen einzelne Herrscher, ihre politischen Entscheidungen und ihre Verwaltung, aber in der Regel keine direkten Angriffe auf die Ordnungsprinzipien und das politische System. Wenn Unzufriedenheit zu Aufständen und Revolten führten, blieb es normalerweise bei einem bloßen Austausch des Regenten. Subtilere Methoden der Herrscherkritik konnten sich mittels fester Usancen oder spezifischer Codes und Spielregeln innerhalb des legalen Rahmens Gehör verschaffen und zielten darauf ab, die Qualitäten des Regenten zu verbessern oder spezifische Modi der Amtsführung zu reformieren. Diese verschiedenen Formen und Praktiken von Herrscherkritik in vormodernen monarchischen Gesellschaften sind Gegenstand dieses Bandes. When looking at pre-modern monarchical societies, one does not expect to observe fundamental dissent directed at the social order as such or at the political system. As a rule, criticism was limited to individual monarchs, their performance and decisions. While discontent could lead to insurrection and rebellion, which normally only culminated in the ruler being replaced by another monarchical figurehead, the subtler methods of voicing criticism were applied within a framework of

legality, of a set of customs or of a code of rules of the game and intended to improve the performance of the incumbent or reform his conduct at court. The various forms of verbal or staged censure of rulers in pre-modern monarchical societies are the subject of this volume.

Courtly Love, the Love of Courtliness, and the History of Sexuality James A. Schultz, 2006-08-15 One of the great achievements of the Middle Ages, Europe's courtly culture gave the world the tournament, the festival, the knighting ceremony, and also courtly love. But courtly love has strangely been ignored by historians of sexuality. With *Courtly Love, the Love of Courtliness, and the History of Sexuality*, James Schultz corrects this oversight with careful analysis of key courtly texts of the medieval German literary tradition. Courtly love, Schultz finds, was provoked not by the biological and intrinsic factors that play such a large role in our contemporary thinking about sexuality—sex difference or desire—but by extrinsic signs of class: bodies that were visibly noble and behaviors that represented exemplary courtliness. Individuals became “subjects” of courtly love only to the extent that their love took the shape of certain courtly roles such as singer, lady, or knight. They hoped not only for physical union but also for the social distinction that comes from realizing these roles to perfection. To an extraordinary extent, courtly love represented the love of courtliness—the eroticization of noble status and the courtly culture that celebrated noble power and refinement

Discourses on Nations and Identities Daniel Syrový, 2021-01-18 The third volume of the collected papers of the ICLA congress *The Many Languages of Comparative Literature* includes contributions that focus on the interplay between concepts of nation, national languages, and individual as well as collective identities. Because all literary communication happens within different kinds of power structures - linguistic, economic, political -, it often results in fascinating forms of hybridity. In the first of four thematic chapters, the papers investigate some of the ways in which discourses can establish modes of thinking, or how discourses are in turn controlled by active linguistic interventions, whether in the context of the patriarchy, war, colonialism, or political factions. The second thematic block is predominantly concerned with hybridity as an aspect of modern cultural identity, and the cultural and linguistic dimensions of domestic life and in society at large. Closely related, a third series of papers focuses on writers and texts analysed from the vantage points of exile and exophony, as well as theoretical contributions to issues of terminology and what it means to talk about transcultural phenomena. Finally, a group of papers sheds light on more overtly violent power structures, mechanisms of exclusion, Totalitarianism, torture, and censorship, but also resistance to these forms of oppression. In addition to these chapters, the volume also collects a number of thematically related group sections from the ICLA congress, preserving their original context.

Symbolism Florian Klaeger, Klaus Stierstorfer, Marlena Tronicke, 2022-10-03 *Special Focus: Omission*, edited by Patrick Gill Throughout literary history and in many cultures, we encounter an astute use of conspicuous absences to conjure an imagined reality into a recipient's mind. The term 'omission' as used in the present study, then, demarcates a common

artistic phenomenon: a silence, blank, or absence, introduced against the recipient's generic or experiential expectations, but which nonetheless frequently encapsulates the tenor of the work as a whole. Such omissions can be employed for their affective potential, when emotions represented or evoked by the text are deemed to be beyond words. They can be employed to raise epistemological questions, as when an omission marks the limits of what can be known. Ethical questions can also be approached by means of omissions, as when a character's voice is omitted, for instance. Finally, omission always carries within it the potential to reflect on the media and genres on which it is brought to bear: as its efficacy depends on the recipient's generic expectations, omission is frequently characterized by a high degree of meta-discursiveness. This volume investigates the various strategies with which the phenomenon of omission is employed across a range of textual forms and in different cultures to conclusively argue for its status as a highly effective and near-universal form of artistic signification.

The Erotic Word David M. Carr, 2005-02-24 Historically, the Bible has been used to drive a wedge between the spirit and the body. In this book, David Carr argues that it can - and should - do just the opposite. Sexuality and spirituality, Carr contends, are intricately interwoven: when one is impoverished, the other is warped.

Perspectives on the Song of Songs / Perspektiven der Hoheliedauslegung Anselm C. Hagedorn, 2012-02-13 The collection of essays contains nineteen contributions that aim at locating the Song of Songs in its ancient context as well as addressing problems of interpretation and the reception of this biblical book in later literature. In contrast to previous studies this work devotes considerable attention to parallels from the Greek world without neglecting the Ancient Near East or Egypt. Several contributions deal with the use of the Song in Byzantine, Medieval, German Romantic and modern Greek Literature. Due to the interdisciplinary nature of the collection new perspectives and avenues of approach are opened.

Constructing Virtue and Vice Olga V. Trokhimenko, 2014 The study examines textual representations of women's laughter and smiling and their imagined connection to female virtue in a wide variety of discourses and contexts of the German Middle Ages, including medieval epic, ecclesiastical texts, conduct literature, lyric, and sculpture. By engaging with the competing, and at times contradictory, views of female laughter, it reaffirms a disputatious nature of medieval culture, in which multiple views of femininity, sexuality, and virtue stood in a conflicting, yet productive, dialogue with one another. The society that emerges when one looks at medieval German texts is always ambivalent: it thrives on and enjoys talking about sensuality and eroticism, while being constrained by the conventions of polite behavior and the fear of sin; it relies on the ritual use of laughter, while marking it as a sign of lust and perdition. Women's laughter thus offers an important way into understanding medieval views of gender because it combines physicality with shifting and conflicting cultural norms.

Topographies of Gender in Middle High German Arthurian Romance Alexandra Sterling-Hellenbrand, 2014-05-01

This book explores the metaphor of topography as a mechanism for the inscription of gender roles in Arthurian romance.

Arthurian Bibliography III: 1978-1992 Caroline Palmer, 1998 Details of all published Arthurian work post 1978 to 1992. If one wants to scoop up nearly everything on an Arthurian subject, there is no substitute for the Arthurian Bibliography series. ANGLIA In 1981 the first Arthurian Bibliography appeared, an exhaustive alphabetical author-listing of all critical material recorded in the standard Arthurian bibliographies up to 1978. This was followed in 1983 by the second volume, giving full indexes by topic, key-word and individual work/author to form a complete subject-index of every topic in Arthurian literature. Summaries and reviews were also indicated where they existed. Arthurian Bibliography III updates this invaluable reference work for Arthurian scholars to 1992. Compiled from the BBSIA, it conveniently contains both author-listing and subject-index in one volume.

Rules for the Endgame Jan-Dirk Müller, 2007-11-19 This groundbreaking interpretation offers a new approach to the reading of medieval literature and revolutionizes the study of the Nibelungenlied itself--providing a richer understanding of the work's significance both in its era and for our own.

introduction to real analysis reviewed

in the united states on october 8 2004
this book reads like an instructor would
teach in class it derives all the
important theorems quite rigorously
and throws in a few lines of intuition
which is very helpful when you are
trying to self study something as
intense as real
